Claims 1-36 and 43-50 have been cancelled. Newly submitted claims 51-53 have been entered. The active claims are 37-42 and 51-53.

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 52 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. A program is not one of four patentable subject matters. The defect can be remedied by deleting the first line of claim 52.

Claim 53 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The preamble calls for a graphical user interface. However, there is nothing graphical user interface recited in the claim combination nor disclosed in the specification. It appears that Applicants' disclosed invention is not a graphical user interface.

Claims 37-42 and 51 are allowed.
